Chipper Program for Wildfire Safety!

Do you have fallen branches, overgrown brush and other vegetation that needs Chipping? The Chipper Program is once again offering service to residents who are working on their wildfire safety clearance. The program provides an alternative to burning or hauling fire hazardous brush.

The Chipper program is in its fourteenth year and anticipates offering service this season until May 15th but don't wait to get your fire prevention work done!

To prepare brush and limbs for the Chipper Program:

1. Stack cut brush and limbs in a row within 5 feet of the road edge with the ends facing towards the road.
2. Rows should be stacked no more that 4 feet high.
3. Keep mud, rocks and roots out of the rows.
4. Locate the rows so the truck and chipper can easily access them, no off-road locations allowed.

To participate in the Chipper Program please call 530-877-0984. The Program is a service of the Butte County Fire Safe Council, a non-profit organization.

Bring Your Carts In

Please help keep Paradise beautiful by not placing and leaving your carts within the front yard or at curbside or roadway collection point more than 24 hrs before the day of collection or beyond 24 hrs after the day of pickup pursuant to Paradise Municipal Code Section 8 08 210 (A) (9).

Overload = No Service

Please remember that carts that are overloaded cannot be serviced. All items must be in the cart with the lid closed. If you find that you have extra material and would like additional service please call the office at **876-3340** to make the proper arrangements.

TOP ACCESS is your direct connection to the Town of Paradise Service Center. Here you will be able to submit service requests (road repairs, drainage, code enforcement, etc.) directly to the appropriate Town of Paradise department. Download the app from your smartphone by searching "TOP Access" in the app store or submit online at the townofparadise.com.

Recycling Facts

100 Years: That's the lifespan of an aluminum can that gets tossed into a landfill instead of a recycling bin.

90 Days: That's how long it takes a recycled aluminum can to make it back on the shelf as something useful.

Forever: That's how long we can keep on reusing an aluminum can. Reusing and recycling drastically reduces air and water pollution associated with mining virgin materials.

Your Local Buy Back Centers
