HOLIDAY TIPS TO REDUCE WASTE AND INCREASE RECYCLING

☞ When shopping for gifts **bring your own bag.**

☞ **Recycle** baskets, tins or boxes when wrapping gifts

☞ Try to find tags and cards that are printed on **recycled**

paper or use partial post consumer materials or make your own!

☞ Wrap gifts in recycling paper or **get creative** and use magazines or newspaper.

☞ This year, **consider a potted tree** that can be replanted or a **natural tree** that has not been flocked so it can be composted.

☞ Did you know that a lot of wrapping paper is recyclable? However, much of the wrapping paper produced today is made of virgin materials. Consider using reusable

material like newspaper, old sheet music, reusable bags, recycled aluminum foil, etc. And if you do go out and buy wrapping paper keep an eye out for wrapping paper that is made of recyclable material.

☞ Did you know that there are laws that prohibit you to throw electronics and hazardous waste in the garbage? As you replace old electronics and batteries it is important to remember that these items are hazardous waste and it is illegal to dispose of them in your garbage cart. Please bring them, free of charge, to the NRWS Recycling Center at 920 American Way, Paradise. If you have questions about hazardous waste drop off please call 876-3340 or visit our website.
